Sessions

Introducing heterogeneity and complexity: 1D-2D-3D-in vivo invasion models
Mechanical signaling in cell migration and invasion
Invasion in development and inflammation
Intracellular signals for invasion: Molecular and structural organization of invadosomes
Extracellular signals for invasion: Cancer and the microenvironment role
Fabrication and modeling microenvironments of invasion

Organizers

Danijela Matic-Vignjevic (France)
Bojana Gligorijevic (USA)
Corinne Albiges-Rizo (France)
Helene Barelli (France)
Daniel Louvard (France)
